

The perfect partner for your NDIS plan

Vision Australia

Blindness. Low Vision. Opportunity.

The perfect partner for your NDIS plan

Vision Australia is here to help you and your family make the most of the new National Disability Insurance Scheme (NDIS).

What does the NDIS mean for you?

The NDIS is a new personalised funding system introduced by the Federal Government, so you can choose and control the services that work best for you.

The NDIS requires you to develop a 'life plan' that covers all the services and organisations you need for your quality of life.

How can we help with the NDIS?

Vision Australia is a registered NDIS service provider. We have been involved with the NDIS from the beginning and are proud that our advocacy influenced how the scheme was developed.

This experience makes us the perfect partner to create your NDIS life plan. We've already developed great plans for our clients and our specialist knowledge in vision loss means that you may get more value from your package.
